DETAILED ACTION

2 1. Receipt of the amendment filed February 10, 2003 canceling claims 1-9 and adding
3 claim 10-65 is acknowledged. Claims 10-65 are pending in the application and are presented
4 to be examined upon their merits.

6

7

5

Election/Restriction

- 8 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- Group I. Claims 1-26 and 62-65, drawn to product for team/tournament auction system, classified in class 463, subclass 42.
- Group II. Claim 27-30, drawn to product for conversion auctions system, classified in class 705, subclass 64.
- Group III. Claims 31-40, drawn to product for temporal negotiation system, classified in class 370, subclass 442.
- Group IV. Claims 41-56, drawn to product for bargaining market auction system, classified in class 705, subclass 37.
- Group V. Claims 57-61, drawn to product for bundle based auction system, classified in class 705, subclass 26.
- The inventions are distinct, each from the other because of the following reasons:

 Inventions in Group I and Group II are unrelated. Inventions are unrelated if it can be
 shown that they are not disclosed as capable of use together and they have different modes of

Serial Number: 09/885,720 Applicant(s): La Mura et al (705/37) Page 3

Art Unit: 3624 Representative: Gathy (46,441)

operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the

- instant case the different inventions function differently for each other and have different
- effects. Group I discloses a product for a team auction system wherein function of the system
- pertains to items and bids based upon team dynamic. Group II discloses details related to a
- 5 product for a conversion auction system wherein details are give to perform various
- 6 calculations and/or conversions within the auction.
- 7 4. Inventions Group I and Group III are related as combination and subcombination.
- 8 Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed
- 9 does not require the particulars of the subcombination as claimed for patentability, and (2) that
- the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the
- instant case, the combination as claimed does not require the particulars of the subcombination
- as claimed because the subcombination requires among other things a product for a temporal
- negotiation system. The subcombination has separate utility such as it can be used in other
- transaction systems, i.e., retail, commercial commerce, etc...
- 15 5. Inventions Group I and Group IV are related as subcombinations disclosed as usable
- together in a single combination. The subcombinations are distinct from each other if they are
- shown to be separately usable. In the instant case, invention Group IV has separate utility such
- as it can be used in a system without the need for partitioning participants into teams. See
- 19 MPEP § 806.05(d).
- 20 6. Inventions Group I and Group V are related as subcombinations disclosed as usable
- together in a single combination. The subcombinations are distinct from each other if they are
- shown to be separately usable. In the instant case, invention Group V has separate utility such

Serial Number: 09/885,720 Applicant(s): La Mura et al (705/37) Page 4

Art Unit: 3624 Representative: Gathy (46,441)

as it can be used in a system without the need for partitioning participants into teams. See

² MPEP § 806.05(d).

7. Inventions Group II and Group III are unrelated. Inventions are unrelated if it can be

- shown that they are not disclosed as capable of use together and they have different modes of
- operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the
- 6 instant case the different inventions have different effects, those being conversion of various
- aspects in an auction and negotiation of a transaction.
- 8. Inventions Group II and Group IV are related as combination and subcombination.
- 9 Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed
- does not require the particulars of the subcombination as claimed for patentability, and (2) that
- the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the
- instant case, the combination as claimed does not require the particulars of the subcombination
- as claimed because the subcombinaion requires among other things a bargain market. The
- subcombination has separate utility such as it can be used in other systems such as department
- stores, retail stores, etc...
- 16 9. Inventions Group II and Group V are related as combination and subcombination.
- Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed
- does not require the particulars of the subcombination as claimed for patentability, and (2) that
- the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the
- instant case, the combination as claimed does not require the particulars of the subcombination
- 21 as claimed because the subcombination requires bundle based auction. The subcombination
- has separate utility such as grouping items together to be bought and sold.

Serial Number: 09/885,720 Applicant(s): La Mura et al (705/37) Page 5

Art Unit: 3624 Representative: Gathy (46,441)

10. Inventions Group III and Group IV are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed

does not require the particulars of the subcombination as claimed for patentability, and (2) that

the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the

instant case, the combination as claimed does not require the particulars of the subcombination

as claimed because the subcombination requires a bargain market. The subcombination has

separate utility such as can be used in other transaction systems that don not require

8 negotiations.

9 11. Inventions Group III and Group V are related as combination and subcombination.

10 Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed

does not require the particulars of the subcombination as claimed for patentability, and (2) that

the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the

instant case, the combination as claimed does not require the particulars of the subcombination

as claimed because the subcombination requires a bundle based auction. The subcombination

has separate utility such as grouping items together...

16 12. Inventions Group IV and Group V are related as combination and subcombination.

17 Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed

does not require the particulars of the subcombination as claimed for patentability, and (2) that

the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the

instant case, the combination as claimed does not require the particulars of the subcombination

as claimed because the subcombination requires a bundle-based system. The subcombination

22 has separate utility such as grouping items together.

Page 6 Serial Number: 09/885,720 Applicant(s): La Mura et al (705/37) Art Unit: 3624 Representative: Gathy (46,441) Because these inventions are distinct for the reasons given above and have acquired a 13. separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. 14. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Conclusion 15. Any inquiry concerning this communication or earlier communications from the examiner should be directed to *Daniel S. Felten* whose telephone number is (703) 305-0724. The examiner can normally be reached between the hours of 7:00AM to 5:30PM Monday-Thursday. Any inquiry of a general nature relating to the status of this application or its proceedings should be directed to the Customer Service Office (703) 306-5631, or the examiner's supervisor Vincent Millin whose telephone number is (703) 308-1065. Response to this action should be mailed to: 16. Commissioner of Patents and Trademarks Washington, D.C. 20231 for formal communications intended for entry, or (703) 305-0040, for informal or draft communications, please label "Proposed" or "Draft".

Applicant(s): La Mura et al (705/37)

Representative: Gathy (46,441)

U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [daniel.felten@uspto.gov].

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1 195 OG 89.
